

Introducing the future of Access Control

intelliguard

S A T E C H N O L O G I E S

The future of easy,
intelligent access control
is here...

Who are we?

We are a proud member of the SATEC family, that is dedicated to creating innovative access control.

Our digital intelligent access control system is designed specifically for small to medium-sized residential estates, complexes, and communities. With IntelliGuard, residents and estate managers have the power to control and monitor gate access through a seamless combination of a mobile app, Intellibot, and user-friendly portal.

Our multifunctional system offers convenience and security at your gate and it is fully functional without a human operator, making it an affordable access control solution.

Our Mission

We want to give you
the **power of control,**

all with
ease, convenience & speed.

The full system

Intelliguard

Stationed at both entry and exit gates. Visitors at the entry gate can open it by scanning a QR code or entering a pin code. If someone doesn't have a booking, they can video call you from the gate reader to request access. This secure and convenient system allows you to manage visitor entry and ensure only authorized individuals can enter.

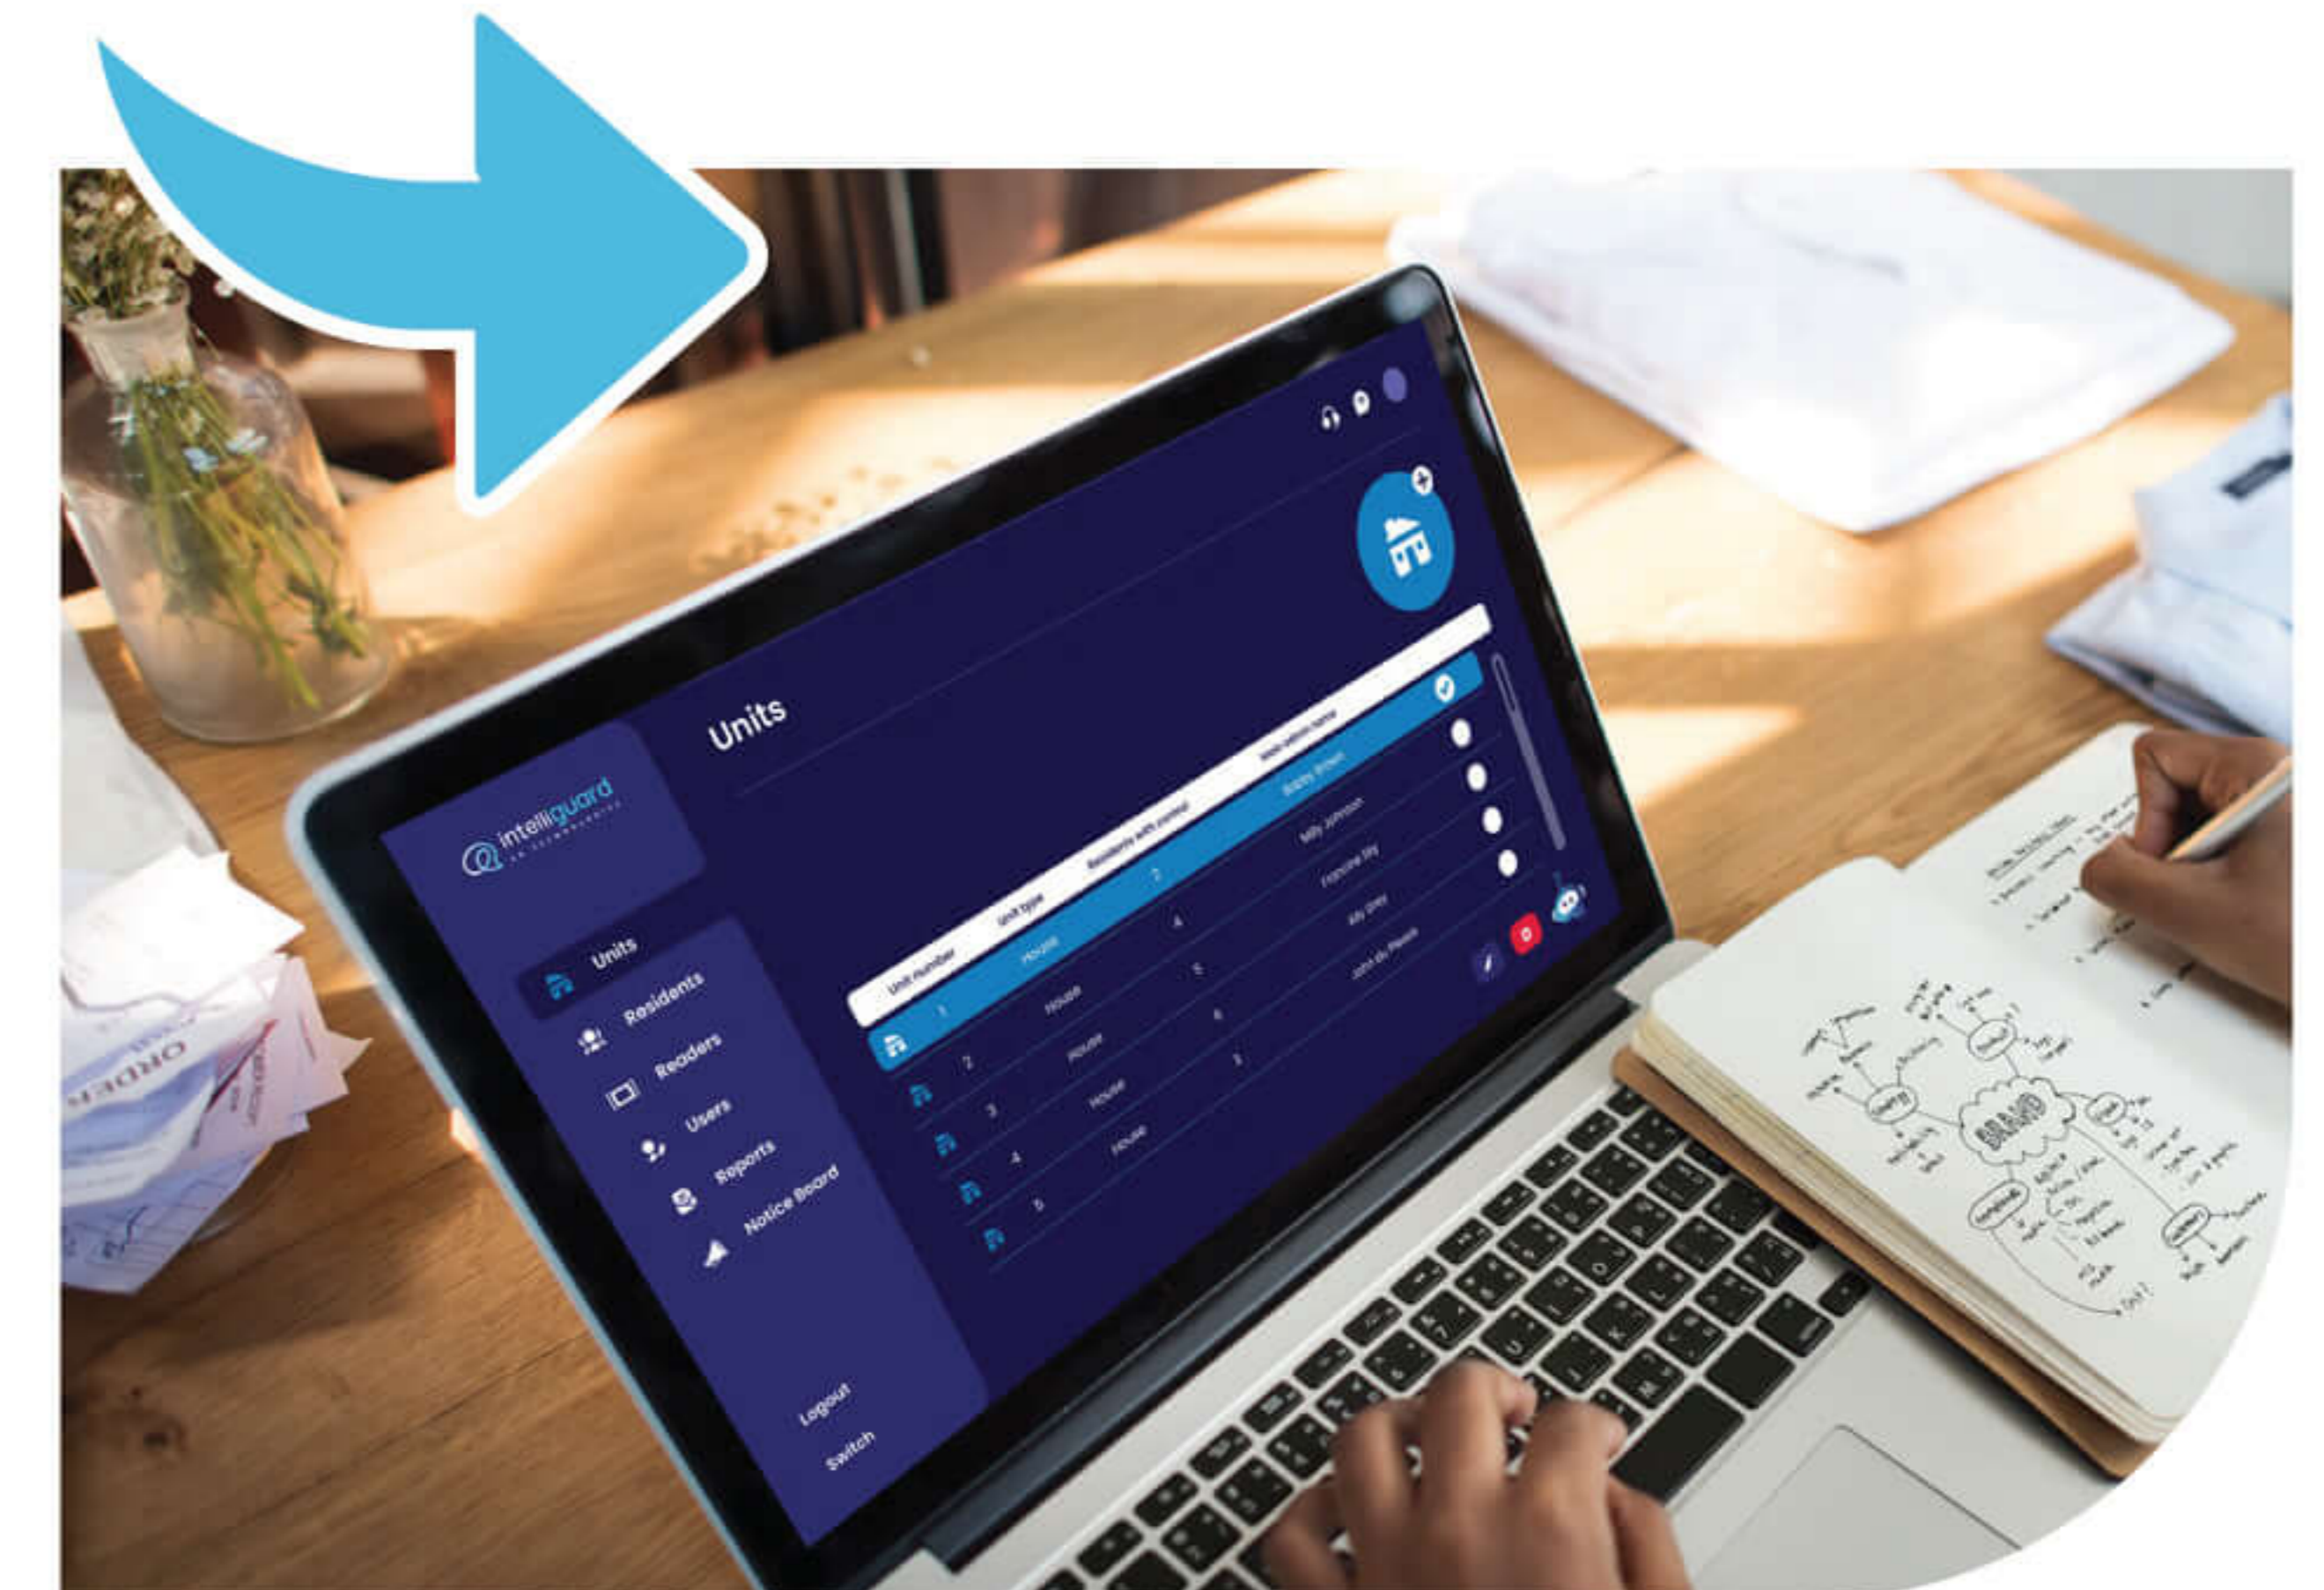

Mobile app

Download the Intelliguard app on your Android or iOS phone. With the app you have the power to grant access through bookings, manage privileges for others and you can easily open your gate with your phone.

Portal

Our portal empowers you as an estate manager, caretaker, or owner to have full control over who within your estate's units can control gate access, send announcements directly to all your residents and pull reports. It's a simple and efficient way to manage your estate and ensure effective communication with your residents.

NFC

Residents can open the gate with a quick tap of their phone.

Manage control

You as the estate manager have the power to give & take access from/to any resident at any time.

Visitor booking

Booking a visitor by giving them a Rolling QR code or pin code, they can easily gain access at the gate without assistance.

Reporting

You can schedule regular reports & customise them to show the data you want to see.

IntelliBot

Our system has a IntelliBot that guides a visitor through the Check in process at the gate, visually & audibly.

Pause access

Regular visitors can have restricted access to the app to control the gate but you have the ability to pause that access & resume it when needed.

Intelligent features

Intelligent Capabilities

✓ No gate remotes needed

Residents don't need remotes anymore, they can simply swipe their phone.

✓ No operator needed

Intelliguard is fully functional without an operator, giving it the capability to be used without a security guard at the gate.

✓ Backup battery

Loadshedding and power outage failsafe, so your Intelliguard can work without power for +/- 4 hours.

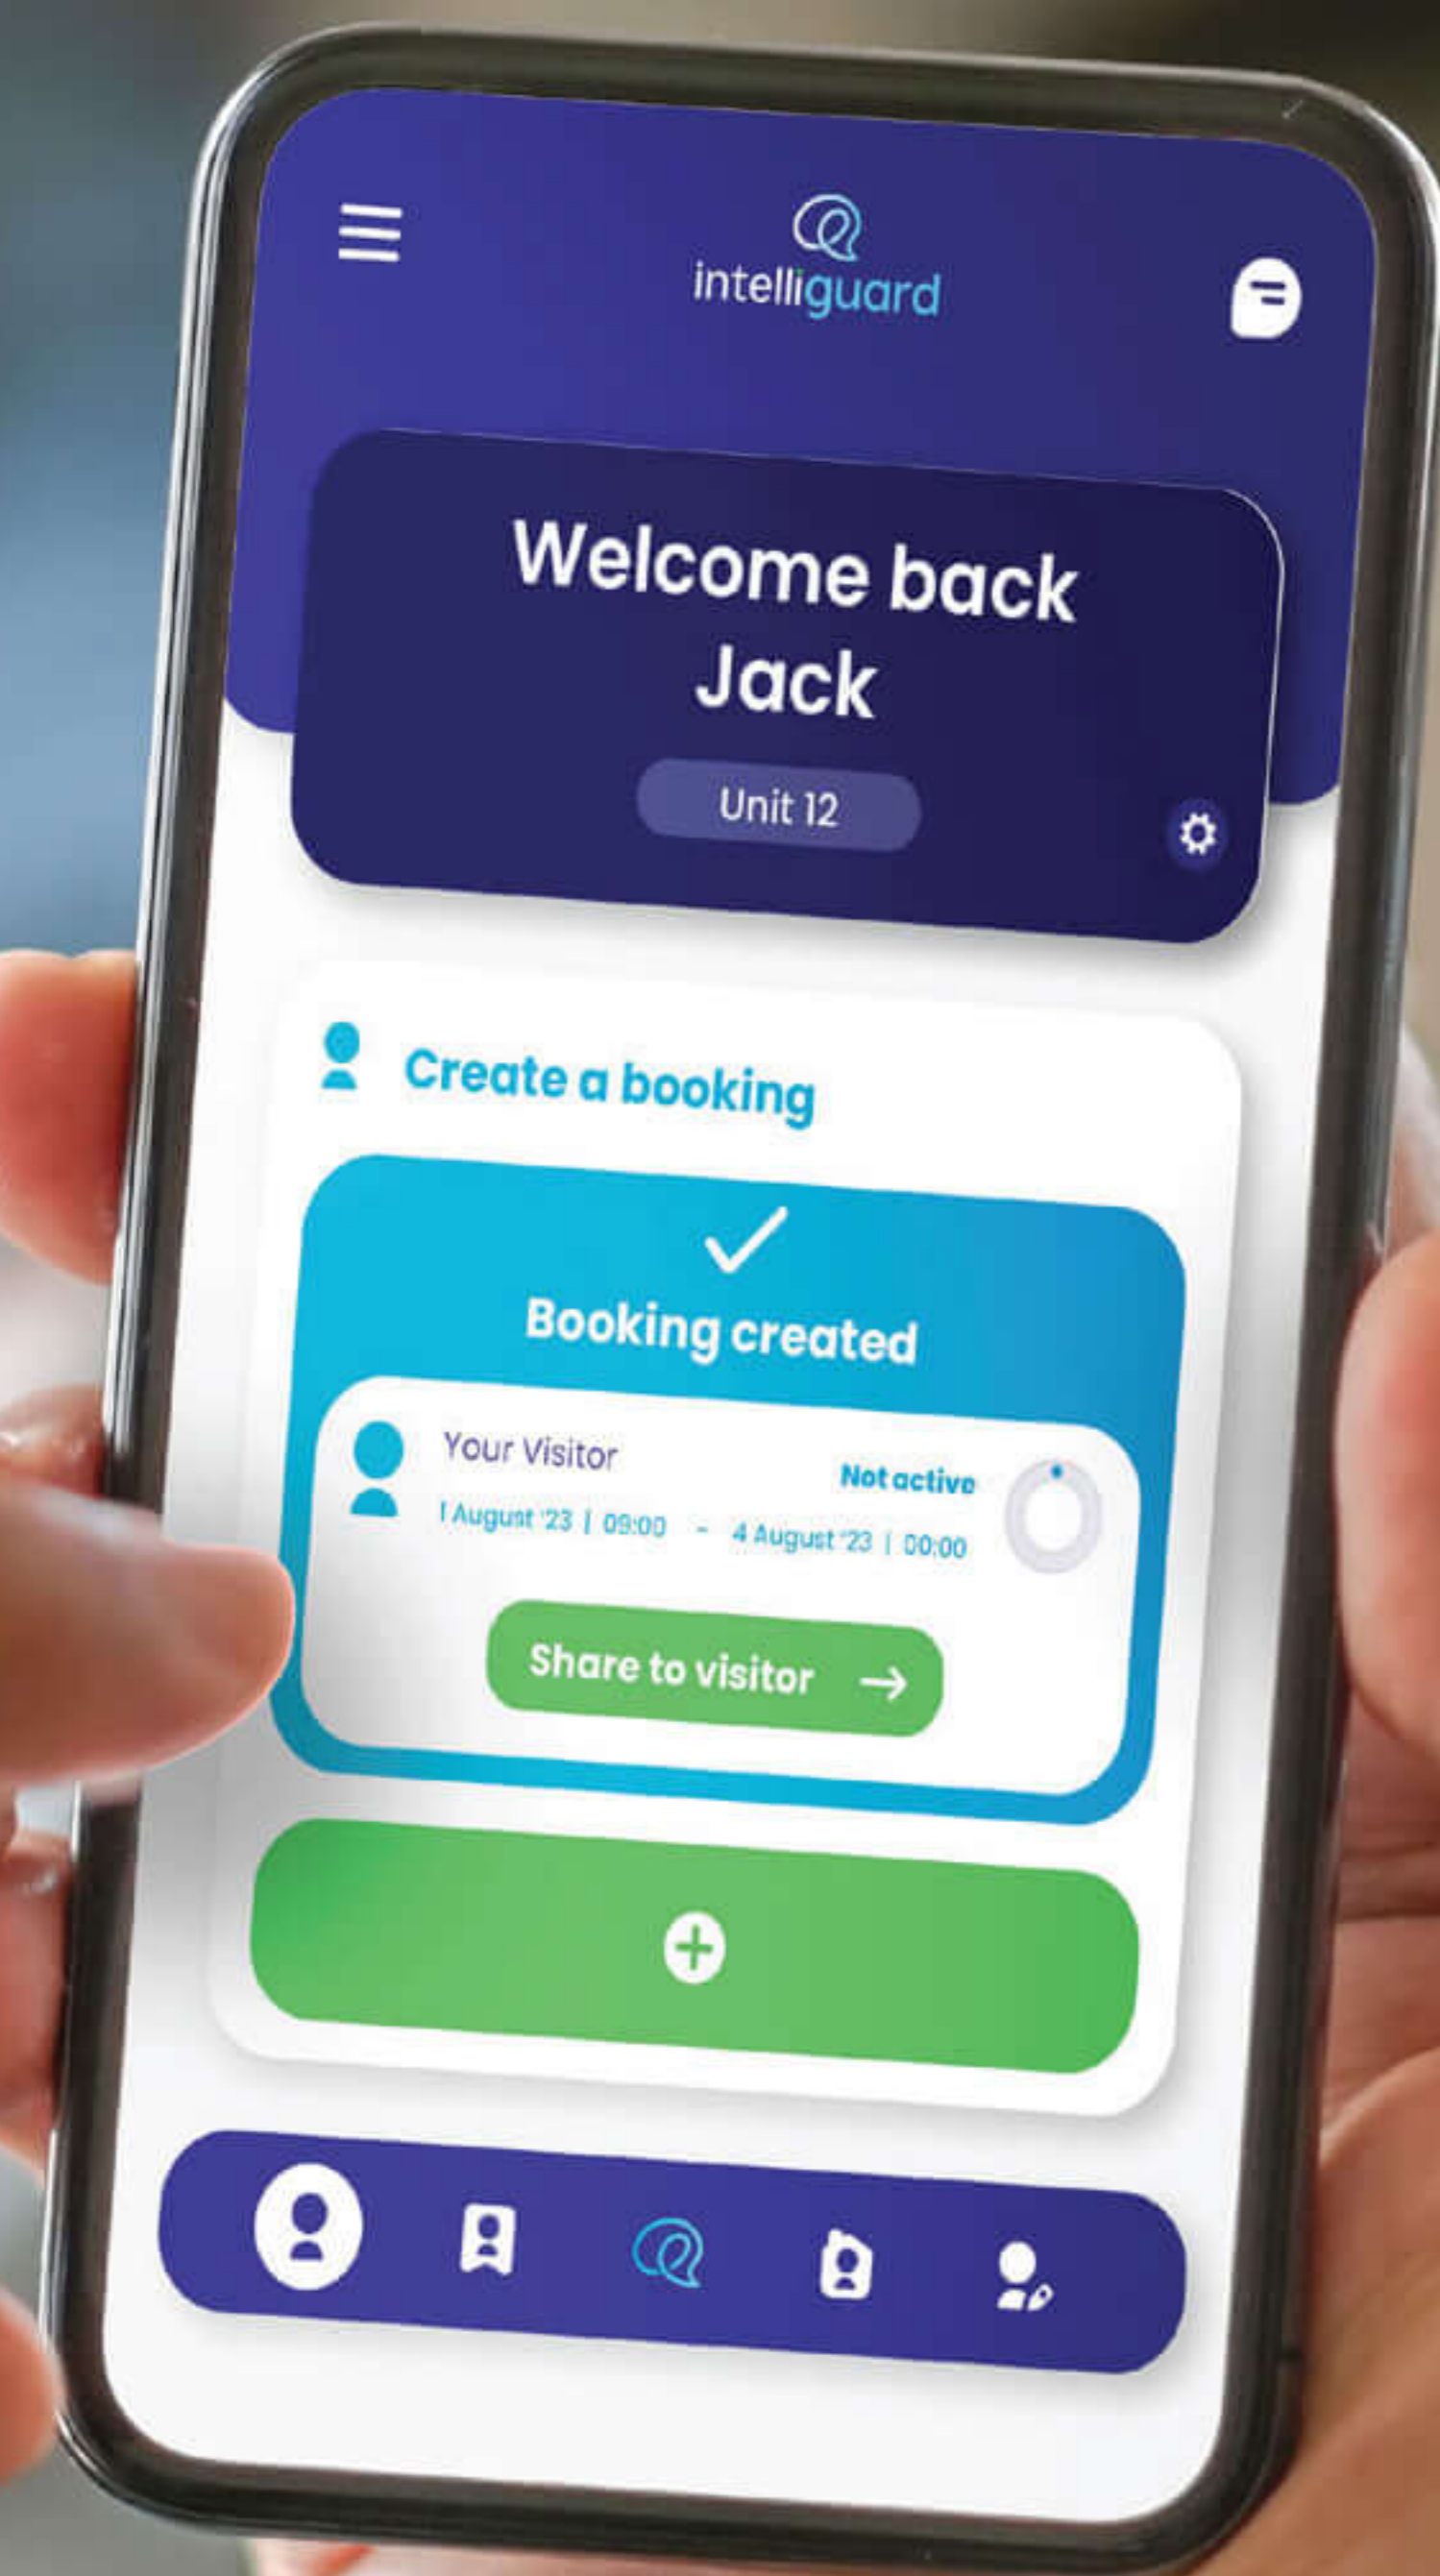

✓ Backup offline mode

When towers are down and there is no or weak signal, your Intelliguard can still work without any signal.

How can IntelliGuard help you?

as a Resident?

Access Control:

You can use your phone to grant or deny access at any time.

Manage Control:

You can organize & control gate access for your household members, allowing you to add, remove, or temporarily pause their access whenever needed.

Book Visitors:

You can schedule visitors in advance & send them a QR code or PIN code through the app for quick & convenient entry at the gate.

Remote access:

The app enables you to manage & regulate access for visitors, providing you with the ability to grant or deny access for anyone directly from your phone and from anywhere.

NFC Capability:

With NFC technology, you can open the gate by simply swiping your phone, eliminating the need for remotes or cards.

Giving you the tools to **control your access** from anywhere...

as an Estate Manager or Owner?

Battery power:

4-hour backup power during load shedding or outages.

Reporting:

Customize and schedule reports for convenient access to information.

Network failsafe:

Network interruption fail-safe to maintain functionality during temporary network outages.

Announcements:

Send announcements effortlessly through our portal, keeping everyone informed.

Manage Control:

Manage tenant/resident access easily via our portal, adding or removing access as tenants/residents move in or out.

Affordable:

Guard-less solution for managing visitor access at your gate, ideal if you lack a security guard & need an affordable access control solution.

Designed to prioritize **simplicity, speed, and user satisfaction.**

as a Visitor?

Experience Easy & User-Friendly Procedures:

Our system is designed with simplicity in mind, ensuring a hassle-free experience for both entry & exit. Say goodbye to complicated processes & enjoy a seamless journey through IntelliGuard.

Save Time with Prebooking Codes:

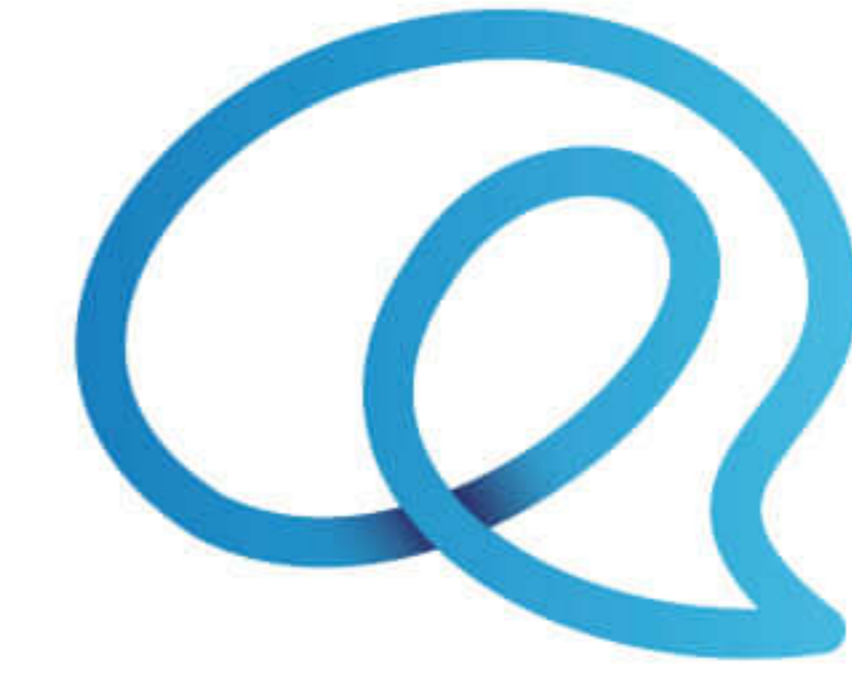

Don't let your visitors waste unnecessary time checking in at the gate. With our system, you can prebook your visitors & give the QR codes or pin codes which they can use to access the gate, saving time & effort.

Friendly Guidance System for Visitors:

We understand the importance of clear instructions at the gate. Our system features a friendly guidance system that assists your visitors every step of the way, ensuring they follow the proper procedures with ease.

Designed to prioritize **simplicity, speed, and user satisfaction.**
